

Queensland Container Refund Scheme

JCQ has created an account for the Container Refund Scheme to fund an initiative that supports the Japanese language achievements of children of Japanese descent in Queensland.

JCQ is hoping to sponsor a “Japanese background” category in the annual MLTAQ Japanese Language Speech Contest.

Our target is \$3000.

If we achieve this target, any excess funds will go towards our fund to build a Japan Cultural Education Centre.

The speech content is an annual event, so this fundraising initiative will also likely become an annual project.

To support this initiative, please collect recyclable containers, drop them off at a Container Refund Point, and choose to donate your funds into the JCQ Scheme ID as per below.

More information is available at the Containers for Change website below, please check the website to find nearest your drop off point.

Thank you in advance for your kind support. Get in touch with us at info@jcq.org.au if you have any questions about this project.
